ABSTRACT

It is essential that you carefully read this legal disclaimer section. If you have any doubts, seek legal, financial, taxation, or other appropriate legal counsel. All of the material supplied here is not intended to be exhaustive, and it should never be interpreted as a part of various contractual arrangements.

We are confident that the information contained in this white paper is correct and up to date, as are all goods, services, technical architecture, token distribution, and corporate timescales. Furthermore, all of these information are subject to change without notice and should never be construed as a signed agreement of counsel.

This white paper in no way binds anyone to sign a contract or make a legally binding promise to contribute. This white paper also does not constitute any form or part of any opinion that can be considered as guidance, nor shall it be construed as a part of any impact that can be utilized in the formulation of a contract or an investment decision by Trillions.

SENA VETUS CIVITAS

Sena Vetus Civitas was created as the mother currency for a future project. Sena Vetus Civitas as seen after the name comes with the improvement of each in the future. Our team comes up with a project open to all and with a well-structured purpose. Our developers are the employees of every owner and will work for the owners not for them. Like any Sena Vetus Civitas project has a wavy digital line in the future just for a purpose in the end.

Fairer Launch:

We created the Sena Vetus Civitas token out of our own need and designed it the way we would invest in it ourselves even if it would have been created by someone else. We wanted a straightforward and flexible project, which would not lack good opportunities. Fair launch means everybody has the same starting conditions, all tokens are in circulation and there are no hidden tricks. As we raise the first funds on our pre-sales round, then we cannot call it fair, but we can call it fairer because we fill all other criteria.

OUR OBJECTIVES

The primary objective of the Sena Vetus Civitas Token fund is to deliver long term capital growth while being 100% invested in the crypto asset. The Sena Vetus Civitas Token is suitable for medium- and long-term investors and is intended to provide investors with an improved measure of risk-return relative to a pure market capitalization-weighted strategy. Investors should expect moderately elevated levels of volatility and potential exit from their investment.

Trading cryptocurrencies have a high level of risk and is not suited for all investors. You should carefully evaluate your investing goals, level of expertise, and risk appetite before opting to trade cryptocurrencies, tokens, or any other digital asset.

We as the promoters behind the business idea are group of companies who are successful entrepreneurs with vast experience and knowledge base. We are established business house having business verticals in Hospitality / Travel and Tourism / Export / Trading and International Fund Management and Banking.

VISION OF SVC

Sena Vetus Civitas is conceptualized as a smart technologies-anchored ecosystem aimed at solving the current problems associated with current conventional crypto trading & transaction processing services, including the delay in payment processing, fraudulent transactions, and expensive transactions costs. Further research into the smart technologies escrows ecosystems revealed that current financial systems benefit from technology, which can solve the underlying challenges.

As a less resource-intensive solution to mining, holding is used. It entails storing funds in a cryptocurrency wallet to finance a blockchain network's protection and operations. Holding, simply put, is the process of securing cryptocurrencies to obtain incentives. To maximize the rewards, investors can hold their cryptocurrency by validating SVC and holding their tokens on the smart exchange. The more the investors hold on to the exchange and invest in tokens, the more they will be rewarded. Holders can earn incentives by holding and controlling their digital wealth. Passive income for the beneficiary is the reward of holding.

SUSTAINABILITY

The Sena Vetus Civitas Token fund follows a passive strategy, with the fund parameters and rebalancing policy expertly curated through data science techniques. The Sena Vetus Civitas token fund is invested in superior, medium and risky cryptographic assets based on market capitalization, with weekly rebalancing. A maximum component weight of 5% is used to avoid that only one asset, and therefore only one source of risk, dominates the portfolio.

A parallel currency is required to make life easier for users. This is exactly what the cryptocurrency concept is for. Cryptocurrency is required to be adopted in all parts of the world for this.

- Faster transfers.
- Little to no transaction costs.
- No limits on purchases and withdrawals.
- International transactions are faster.
- 24/7 access to money.
- Not governed by any central bank or monetary authority.
- Freedom for anyone to use

COMPETITIVE ADVANTAGES

Our team has had previous success, Our goal here is to go much further than that. The Sena Vetus Civitas is as flexible as it is powerful and will be used as the foundation for a range of revolution products, services, and projects going forward. Each will transform a different area of crypto. The protocol will use Defi 3.0 Multichain Farming to increase the Treasury exponentially at a rate of ~50% a year or more to better support the tokens price floor. Rug-Proof: No minter code, soon to be Audited.

Thanks to innovations in smart contracts, Sena will be able to furnish some of highest APY in the DeFi market outperforming competitors. Sena Vetus Civitas - SVC will be the first Automatic Staking Token with a Master Node backed Treasury, this will ensure revenue support for the Sena Vetus Civitas Community. Easy and Safe - We provide auto staking right in your wallet when you purchase SVC. No need to move your tokens to our website. From the minute you buy, you are staked, and set to receive rebase rewards. We will become the easiest auto staking Protocol in DeFi.

LEGACY OF SVC

It is a blockchain-based asset that offers functionality like the functionality of Ether. This is why SVC is one of the best cryptocurrencies to invest in. SVC, a decentralized multi-utility token that can be used in almost every industry. The list includes but is not limited to the following only :

- Finance
- e-commerce
- Restaurants
- Real-estates
- Shopping
- Forex Trading
- Hotels
- Flights booking
- Recharge
- Transportations
- Homes
- Boats
- Clothing
- Health and pet products
- Wine
- Condos
- Cars & much more.

SVC STAKING

The company's current platform stores all staked SVC tokens using TRUST WALLET and a double-checking system. As more and more people, including institutional investors realize the crypto market's lucrativeness, crypto staking is fast becoming a trend of earning passive income by simply holding or locking funds in a wallet, although you can not make passive income through the buying and selling of this token until it becomes fully listed.

Auto-staking Protocol :

- Automatic Staking and Compounding Straight to Your Wallet!
- Get Rewards Every 30 Minutes / 48 Times Daily!
- Highest Fixed APY's - Means More Money Generated For You!
- A portion of the buy and sell fees will be used for marketing purposes to ensure growth within the Revolt Community
- Compounds automatically with a treasury-backed currency with intrinsic value

TOKENOMICS

Only 100,000,000 Coins will ever be created and circulating supply is planned to be restricted to 80 Million (80%). This makes SVC a hard asset, like land or gold, providing an opportunity for people to store value in digital realm over long periods of time.

TOTAL SUPPLY 100 000 000

LIQUIDITY 50%

FUTURE EXCHANGE 20%

MARKETING 10%

CHARITY DONATIONS 10%
